

*Third in a Series of 3 Brown Bag Seminars  
Discussing Flow Targets and Ecology*

# California Floodplains and the Fish that Use Them

**Carson Jeffres, Ph.D.**

Field and Lab Director  
UC Davis Center for Watershed Sciences

**Friday, August 18  
Noon - 1:00**

**Park Tower Plaza  
980 Ninth St., 2nd Floor  
Sacramento, CA**

Dr. Jeffres will discuss how, historically, fish utilized habitats in the Central Valley. However, due to development, their life histories are now disconnected from the habitat that is currently available. Dr. Jeffres will illustrate how restoration of these connections can reconcile fish with their habitat.
